

Introduction to HCI, 2015 Fall

HCI Design

Due 11/1 23:59 (Team)

1. Refine your project proposal.

- A. Update and refine the proposal ideas and user analysis/research (especially UI requirements). Create an interview video with your typical user (1~2 min), if not done yet.
- B. Update and refine the scenarios. Create a 2~3 min scenario video.
- C. Update and refine the task model, if possible.
- D. Indicate clearly which parts have been newly added, modified, deleted or upgraded.

2. Design the interface for your proposal.

- A. Use Balsamiq tool (or any other tools of your choice) to design and sketch out the interface for your proposal application.
- B. Be sure to add a document/annotations of justifying your design choices.
- C. Prepare 5-10 min. presentation on Nov 2 ~ 4.

What to submit (uploaded to the kulms):

- **Updated proposal document, video, presentation files and others in zip.**
- **In class presentation on Nov 2~4.**
