

## **Introduction to HCI, 2015 Fall**

### **HCI Implementation (MVC)**

**Due 12/1 23:59 (Team)**

- 1. Continue to refine your project proposal/HCI design.**
- 2. Carry out main implementation for your project.**
  - A. Make sure you try to adhere to the MVC architecture even though your project is probably relatively small scaled.**
- 3. Prepare and submit an interim report**
  - A. Must include partial executable (not complete).**
  - B. Must include architecture diagram and explanation in terms of MVC (or justify why you did not follow the MVC approach).**

**What to submit (uploaded to the kulms):**

- Updated project document and demo video (or executable) in zip.**
- (No class presentation for this)**
